PC aur Mobile ko kaise jodein

Sirf 5 aasaan kaam — ek hi dafa karne hain

1. PC App kholein aur apna **account banayein** (email + password).
2. Phone aur PC ko **ek hi Wi-Fi** se jodein.
3. PC App mein neeche **apne naam** par click karein → **Phone app**. Wahan ek **address** likha hoga, jaise **192.168.1.5:3765**
4. Phone par Mobile App kholein, woh **address likhein** aur **Continue** dabayein.
5. Wahi **email aur password** se login karein. **Bas — ho gaya!**

PC par pehli dafa "Allow access" ka sawal aaye to **Allow** dabayein.

Phone par "Install unknown apps" poochhe to **Allow** karein.

Yaad rakhein: phone se chalane ke liye PC App **khuli** honi chahiye.
